Reinsurance Law and Practice – Recht und Praxis der Rückversicherung

Zurich is an internationally outstanding reinsurance as well as insurance hub. Swiss practice and law of reinsurance are therefore of great relevance not only in Switzerland but worldwide. The forum aims to discuss the reinsurance hub in the light of new regulatory requirements as well as international legal developments and product innovations.

The event will be held bilingually (German and English). Speakers who present in German will present their slides in English so that participants who do not speak German can also follow along.
