Thursday, 28 October 2021
13.00 – 17.15
Löwenstrasse 1, Zurich

**LIVE
STREAMING
MÖGLICH**

Note on COVID-19: Access to the event is reserved for persons with a COVID certificate. The valid protection concepts of the BAG and the Canton of Zurich will be applied. If face-to-face events are not permitted, we reserve the right to offer the conference only via live stream as a substitute.

Recent Developments in Life Sciences

The aim of the seminar is to inform the participants about the latest developments in the field of life sciences in Switzerland and the EU. As every year, two presentations will give an overview of the case law and legislation of the past year in Switzerland and the EU. This year's seminar will also be devoted to the challenges in connection with marketing authorisation process for Covid-19 vaccines and the adaptation of the agreement on technical barriers to trade EU Switzerland in connection with the MD Regulations. The program concludes with a contribution on early and managed access to medicines in Switzerland, addressing the opportunities and challenges in this area, which lies between clinical trial research and on-label therapy.

Speakers
